HAMMERS: Male, because in the last 5000 years they've hardly changed at all...and are occasionally handy to have around B)

Different types of Hammers

A wide range of Hammers are available, varying in shape, size and weight – Not funny

The average household only really needs one type. – That's true.

The modern hammer is hard to find but has been spotted at the ASSC performing to a standard that has now been expected

Claw Hammer - only when wound up

Ball Pein - What the fcuk

Cross and Straight Pein - Ditto

Cross Pein Pin Hammer - Ditto

Club Hammer – found occasionally at the Lizard LoungeSledge Hammer - I know a song about him

Joiner's Mallet - ?????Soft-faced Hammers – is that another version of 2 faced

Special Hammers – Now we're talking

Power Hammers - Wooohooo

Advice for using hammers

Always use the right hammer for the job, it will make the job easier and avoid possible damage.

If a hammer tends to slip off nails, roughen the face of the head using a medium abrasive paper !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
